

The interuniversity PhD course in Industry 4.0 Politecnico di Bari – Università degli Studi di Bari Aldo Moro

<http://phdindustria40.poliba.it>

Prof. Engr. Mariagrazia DOTOLI (mariagrazia.dotoli@poliba.it)

Full Professor in Automation

Department of Electrical and Information Engineering – Politecnico di Bari

Coordinator of the interuniversity PhD course in Industry 4.0 - Università degli Studi di Bari – PhD School of the Politecnico di Bari

Outline

- **General information**
- **Motivation and goals**
- **The industry 4.0 paradigm**
- **Research topics of the PhD program**
- **Academic board**
- **Network of collaborations and internationalization**
- **Course schedule**
- **Seminars and scientific events**
- **Teaching activity**
- **Advertising and communication**
- **Future outlooks**

The PhD course in Industry 4.0

It is an interuniversity PhD course:

- Politecnico di Bari (Poliba)
- Università degli Studi di Bari “Aldo Moro” (Uniba)

Politecnico
di Bari

UNIVERSITÀ
DEGLI STUDI DI BARI
ALDO MORO

It is newly established:

- first PhD course in Italy on "Industry 4.0"
- accredited by MUR in July 2020

involves several departments:

- **Proposing Department:**
 - Dipartimento di Ingegneria Elettrica e dell'Informazione (DEI) – Politecnico di Bari
- **Other departments involved:**
 - Politecnico di Bari:
 - Dipartimento di Ingegneria Meccanica, Matematica e Management (DMMM)
 - Università di Bari:
 - Dipartimento di Informatica, Dipartimento di Chimica, Dipartimento di Farmacia
 - Dipartimento Interateneo di Fisica (DIF)

Politecnico
di Bari

UNIVERSITÀ
DEGLI STUDI DI BARI
ALDO MORO

Motivation

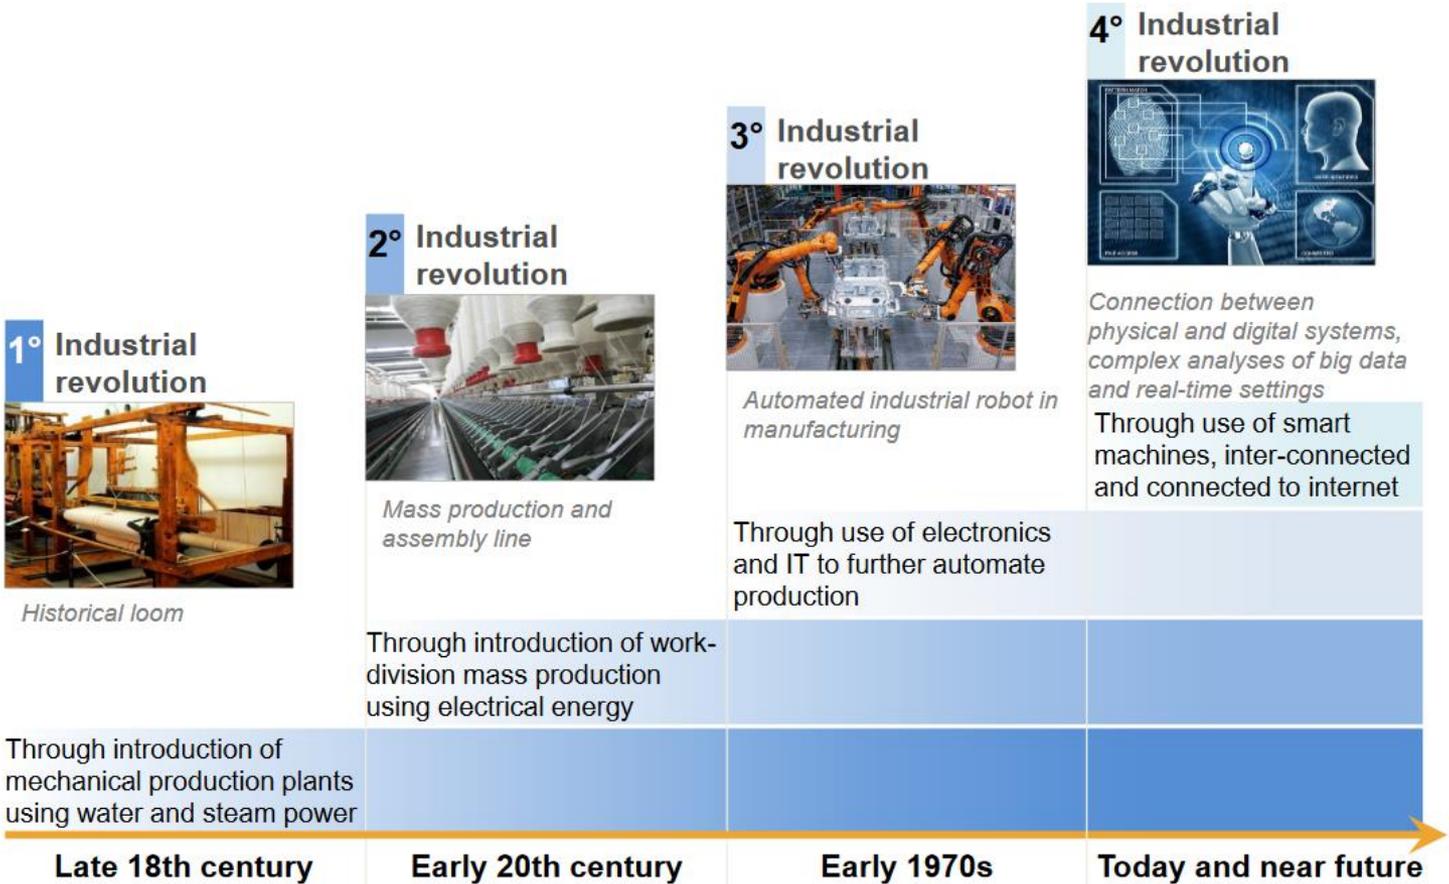

- the digital transformation taking place in industries increasingly requires high-level multidisciplinary skills, with cross-fertilization between:
 - basic sciences (ERC areas PE2-PE5)
 - computer science (ERC areas PE6)
 - information engineering (ERC areas PE7)
 - industrial engineering (ERC areas PE8)

Goals

- pursuing high-level education/research initiatives on interdisciplinary technologies enabling the Industry 4.0 paradigm
- training researchers on contributing to innovation and digital transformation of Italian production areas:
 - regional context: aerospace, agri-food, automotive, biomedical, consumer electronics, energy, information technology, logistics/transport, mechanics/mechatronics, steel, textile, clothing/footwear sectors.

The industry 4.0 paradigm

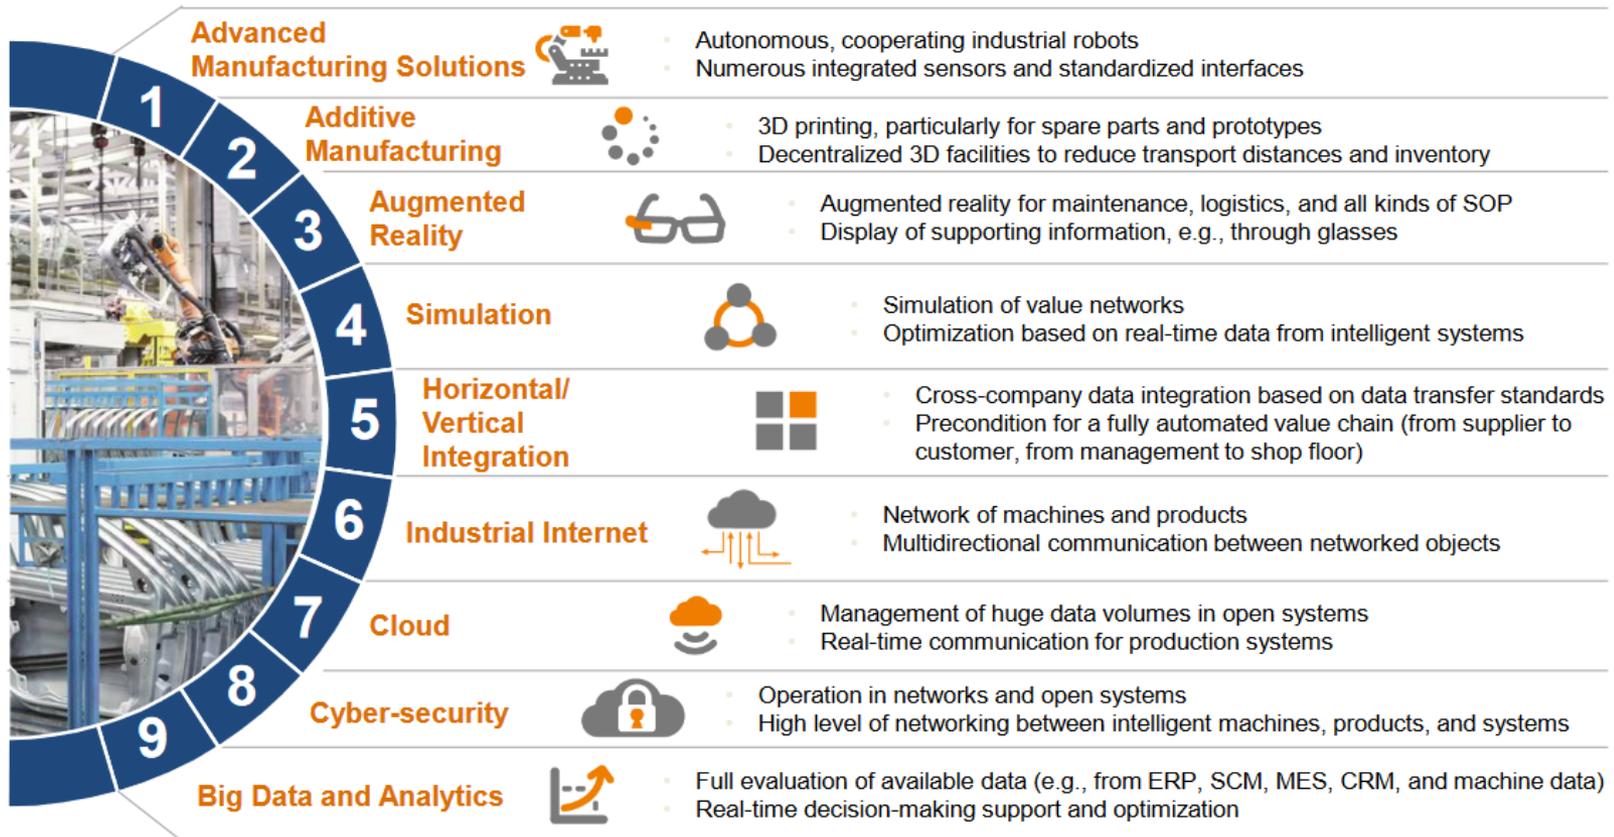

Industry 4.0 - the fourth industrial revolution:

"Industria 4.0" national plan

The industry 4.0 paradigm

Industry 4.0 - enabling technologies:

"Industria 4.0" national plan

The industry 4.0 paradigm

Industry 4.0 and beyond:

- From traditional automation to cognitive automation (the operator, with augmented functionalities, becomes a factor of increased productivity for the factory)

- Collaborative automation (human-machine collaboration)

- Machine supervision activities

- Machine support activities

- towards industry 5.0 (collaborative industry, humans augmented thanks to cobot integration and connectivity)

Intelligent vision systems for human monitoring during cobot interactions

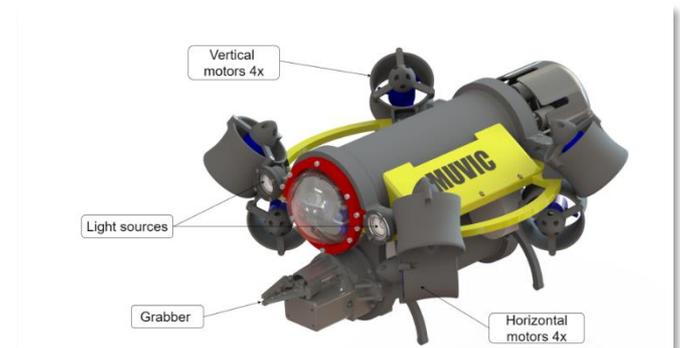

- EU H2020 Project “MindBot – Promoting good mental health in SMEs adopting cobots”
- www.mindbot.eu

Decision and control techniques for collaborative robotics in Industry 4.0

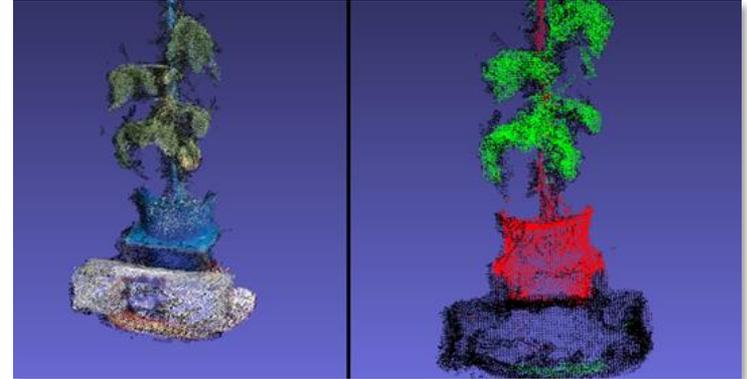

- Safe, ergonomic, and efficient trajectory planning
- Collision avoidance and detection
- <http://dclab.poliba.it/>

Advanced embedded systems for autonomous underwater robots control

Computer vision and Artificial Intelligence for high-throughput data analysis

- <https://www.stiima.cnr.it/>
- <https://www.alsia.it/>

Artificial Intelligence for Marine Data Science (MDS)

- <https://www.stiima.cnr.it/>
- <https://www.uniba.it/ricerca/dipartimenti/informatica>

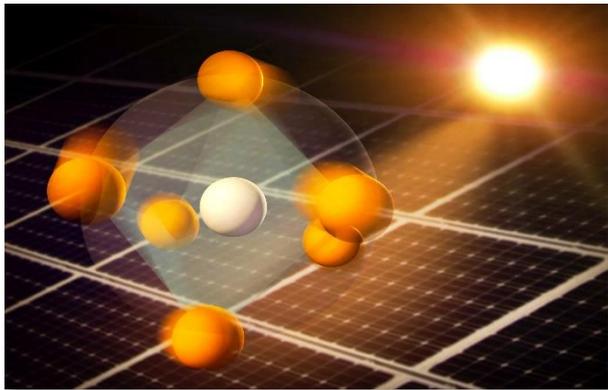

- **Smart Education for Industry 4.0**

- **Serious games**
- **Gamification**
- **Smart Learning Environments**
- tell.di.uniba.it

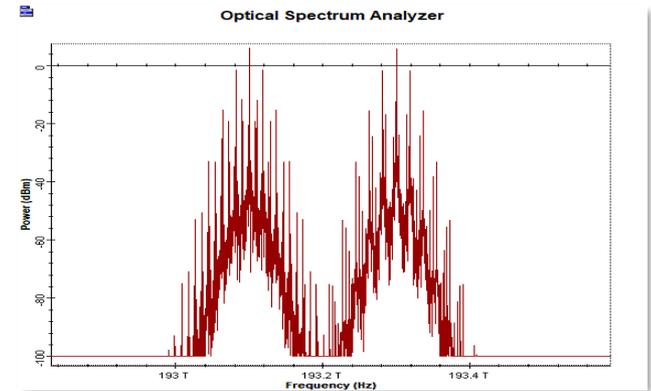

Microwave/photonic for satellite telecommunication payloads: photonic RF frequency converter

- <https://www.npeg.poliba.it/>

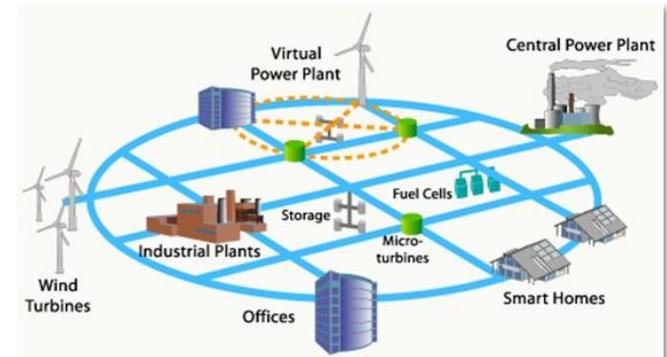

Metal halide perovskite materials for energy conversion

- <https://www.uniba.it/ricerca/dipartimenti/chimica>

Green and sustainable industrial development:

- industrial demand side management
- flexibility transition for industrial processes
- <http://dclab.poliba.it/>

Extending Reality in Retailing: Re-shaping the future of User Experience

- <https://www.dmmm.poliba.it/vr3lab/>

Augmented Reality Assisted Healthcare (ARAH)

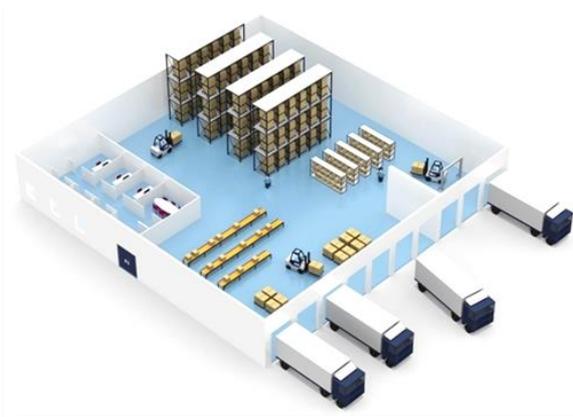

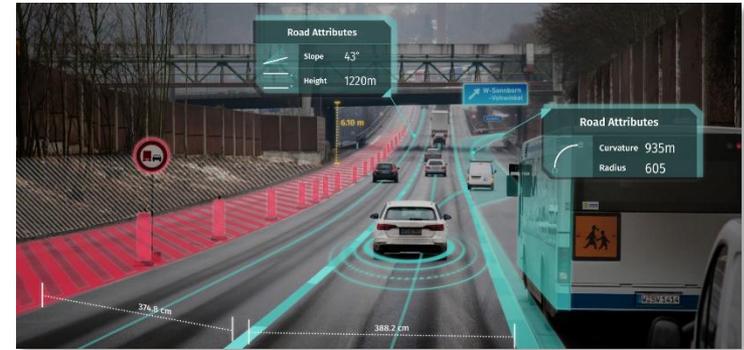

- <https://www.dmmm.poliba.it/vr3lab/>

Virtual and augmented reality in complex manufacturing systems:

- ergonomics-oriented design
- modelling and simulation for performance and maintenance optimization
- <http://dclab.poliba.it/>
- <https://www.dmmm.poliba.it/vr3lab/>

Path planning for motion sickness mitigation in autonomous vehicles

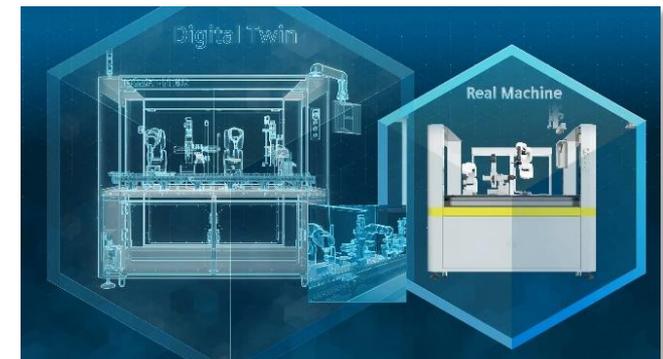

Machine learning and optimization techniques for Logistics 4.0:

- automatic warehouses
- intelligent warehouse management systems
- <http://dclab.poliba.it/>

Digital twin for controlling industrial systems:

- real-time performance optimization
- prognostics and health management
- <http://dclab.poliba.it/>

Composition:

- **24 Scientific-Disciplinary Sectors, 4 Scientific-Disciplinary areas at CUN**

n.	SSD	Settori concorsuali interessati	Aree CUN-VQR interessate
1	CHIM/01	CHIMICA ANALITICA	03 - Scienze chimiche
2	CHIM/02	MODELLI E METODOLOGIE PER LE SCIENZE CHIMICHE	
3	CHIM/03	FONDAMENTI DELLE SCIENZE CHIMICHE E SISTEMI INORGANICI	
4	CHIM/06	CHIMICA ORGANICA

Network of collaborations and internationalization

8 national centres for industry 4.0:

Made (Milano)

Start 4.0 (Genova)

Bi-Rex (Bologna)

Artes 4.0 (Pisa)

Smact 4.0 (Triveneto)

CIM 4.0 (Torino)

Cyber 4.0 (Roma)

Meditech (Napoli and Bari).

Collaboration with the Competence Center:

MEDITECH
COMPETENCE CENTER

- Consortium established in the Campania and Puglia Regions for technology transfer in the Industry 4.0 area
- Participation in the Integra4.0 project, the so-called teaching factory of Meditech

Integra4.0

La "Teaching Factory 4.0" di MedITech

- **Collaborations with SMEs:**

- strong synergies between the proposing areas of the two Universities and the industrial research initiatives taking place in Puglia
- capitalization of the skills acquired by the two Universities within the technology transfer programmes

Collaborations with large enterprises and research centers

- Research centers that are sponsors of Ph.D. scholarships:

- **STIIMA-CNR**

- Companies that are sponsors of Ph.D. scholarships:

- **Isotta Fraschini Motori SpA**
- **Masmec SpA**

Isotta Fraschini Motori
a FINCANTIERI company

MASMEC

- Seminar activities on digitalization and industrial automation:

- **Siemens**
- **Omron**
- **Masmec SpA**

SIEMENS

OMRON

MASMEC

Collaborations with Universities and Foreign Research Centers:

Name	Country	Description
ABO AKADEMI UNIVERSITY	Finland	Advanced functional materials
DELFT UNIVERSITY OF TECHNOLOGY	The Netherlands	Automation, robotics, simulation and optimization
FRAUNHOFER HEINRICH-HERTZ INSTITUT BERLIN	Germany	ICT systems for augmented reality and virtual reality platforms
SHANXI UNIVERSITY	China	Advanced sensors for industrial processes, environment and medical applications
UNIVERSITY OF CASTILLA - LA MANCHA	Spain	Software certification

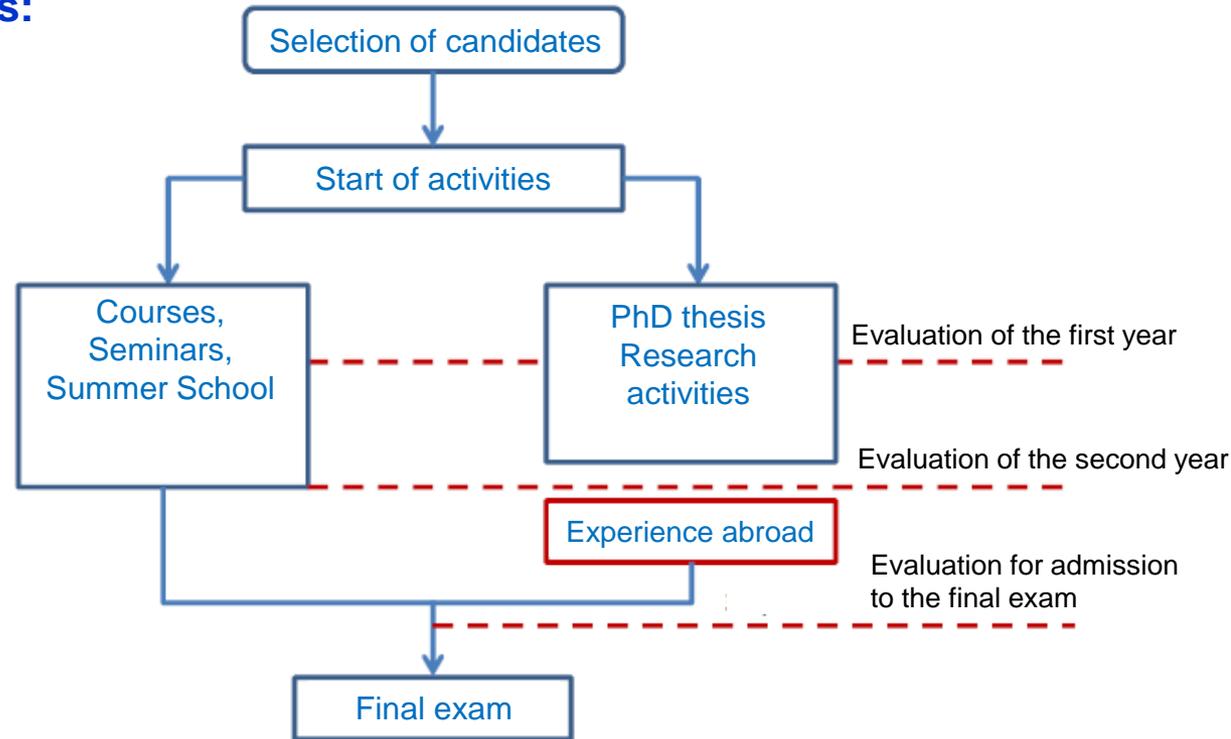

15 members of the Academic Board with affiliation at universities and foreign research centers:

- **TU Eindhoven (NL), TU Delft (NL), Shanxi University (CN), Fraunhofer Heinrich-Hertz-Institut Berlin (DE), Universitat Bielefeld (DE), Tsinghua University (CN), University of Wisconsin (USA), University of Connecticut (USA), University of Hertfordshire (UK), Universidad Politécnica de Madrid (ES), Åbo Akademi University (FI), Georgia Institute of Technology (USA), Fraunhofer Institute for Computer Graphics (DE), Hong Kong University (CN), Chinese Academy of Sciences (CN)**

Course schedule

The course lasts 3 years-180 ECTS, including any period of study and research abroad and internships in public/ private institutions

general planning of activities:

NOTE: MINIMUM REQUIREMENT FOR ADMISSION TO FINAL EXAM:
The PhD student is co-author of 1 (3) scientific articles in an international journal (in proceedings of international conferences) indexed in Scopus or ISI/Web of Science databases.

XXXVI cycle: starting Nov. 1st 2020, ending Oct. 31st 2023

38 applications to the selection

12 positions were assigned:

- **3 positions with Poliba scholarship (1 reserved to foreign graduates)**
- **3 positions with Uniba scholarship**
- **1 position with scholarship funded by the Puglia Region**
- **2 positions with scholarship funded by local companies:**
 1. **Isotta Fraschini Motori SpA**
 2. **Masmec SpA**
- **3 positions without scholarship**

Course schedule - XXXVI cycle

XXXVI cycle

12 places (6 women, 50%; 1 graduated abroad, 8%)

	Name	Tutors	Scholarship	Research topic
1	DAMMACCO LUCILLA	Proff. Dotoli, Fiorentino, Ingg. Carli, Lazzizzera	Borsa Masmec	Realtà virtuale e aumentata per l'ottimizzazione delle prestazioni e della manutenzione delle linee di produzione
2	DE NICOLÒ FRANCESCO	Prof. Amoroso	Borsa Uniba	Big Data Analytics: from smart firms to smart consumers
3	DEMARINIS LOIOTILE ANNAMARIA	Proff. Bellotti, Amoroso	Senza borsa	Designing AI-based Technology Transfer Processes for the Healthcare 4.0 challenge
4	DI GIOIA MICHELE	Proff. Patimisco, Marzocca	Borsa Uniba	Development of compact electronics for optical sensors based on photoacoustic spectroscopy for the detection of gas traces
5	MARASCIUOLO FRANCESCA	Prof. Dicorato	Borsa Poliba	Integration of electric vehicles into microgrids and distribution grid
6	MINERVINI GIANLUCA	Proff. Fanizza, Panniello, Striccoli	Borsa Uniba	Materiali innovativi a base di Carbon Dot per applicazioni tecnologiche avanzate
7	PRICCI ALESSIO	Proff. Percoco, De Tullio, Tricarico	Borsa Regione	Analytical and Numerical Modeling of the Extrusion Based 3D Printing Process
8	PROIA SILVIA	Prof. Dotoli, Ing. Carli	Borsa Poliba Estero	Tecniche di decisione e controllo per sistemi robotici collaborativi per l'industria 4.0
9	RICCI MARINA	Prof. Fiorentino	Borsa Poliba	Extended Reality in Retail: Designing the Future of the Customer Experience
10	RODIO LUCA	Proff. D'Orazio, Calò, Dr. Schena	Senza borsa	Definizione e sviluppo prototipale di funzionalità digitali innovative in tecnologia ottico/fotonica per satelliti per telecomunicazioni
11	ROMEO LAURA	Prof. Perri, Ing. Marani	Senza borsa	Dispositivi e sistemi di visione per il monitoraggio del benessere degli operatori in uno spazio di lavoro condiviso con Cobot nell'Industria 4.0
12	SAPONARO GIANMARCO	Prof. Camporeale, Ing. Piscopo	Borsa Isotta Fraschini	Smart systems for Power Management

XXXVII cycle: starting Nov. 1st 2021 (Jan 1st 2022 for GREEN/INNOVATION scholarships), ending Oct. 31st 2024 (Dec 31st 2024 for GREEN/INNOVATION scholarships)

- **51** applications to the selection
- **11** applications to the “GREEN/INNOVATION” selection

15 positions were assigned:

- **3** positions with Poliba scholarship (1 reserved to foreign graduates)
- **3** positions with Uniba scholarship
- **2** positions with scholarship funded by the Puglia Region
- **1** position with scholarship funded by research centers:
 1. **CNR-STIIMA**
- **3** positions with scholarship GREEN/INNOVATION
- **3** positions without scholarship

Course schedule - XXXVII cycle

XXXVII cycle

16 places (6 women, 40%; 4 graduated abroad, 26%)

ISTRUZIONE

La pubblicazione del bando di concorso è prevista per settembre

● Il Politecnico di Bari raddoppia i dottorati di ricerca. Ai 4 corsi attivi presso i suoi Dipartimenti se ne aggiungeranno, a novembre, altri quattro. La pubblicazione del bando di concorso è attesa presumibilmente per il prossimo settembre.

I corsi attuali sono: "Rischio e Sviluppo Ambientale, Territoriale ed Edilizio"; Ingegneria Mec-

Al Politecnico 4 nuovi dottorati di ricerca su industria, aerospazio e territorio

Il rettore Cupertino: investiamo sulle competenze del Paese. Collaborazione con l'Ateneo

(La Repubblica, 31/07/2020)

ranno da novembre. Si aggiungono ai quattro dottorati di ricerca già attivi nei dipartimenti del Politecnico che, così, raddoppia i gioielli di famiglia. I primi due dottorati avranno sede amministrativa-gestionale al Politecnico, gli altri nell'Ateneo barese. Ma, soprattutto e in particolare per quanto riguarda Industria 4.0 e Ingegneria in scienze spaziali puntano a istituire un percorso triennale di studio e ricerca in stretta connessione con le aziende del settore. Il bando di concorso è atteso per il prossimo settembre. Le borse di studio rientrano nei finanziamenti previsti dalla Regione Puglia che, con la misura «Dottorato XXXVI Ciclo», ha stanziato complessivamente oltre 5 milioni di euro.

(La Repubblica, 07/07/2020)

Politecnico e Masmec un'intesa che vale "Qui si gioca il futuro"

Un dottorato di ricerca "Industria 4.0" finanziato dall'azienda di Modugno. Sarà dedicato alla realtà virtuale e aumentata. Vinci: "Puntiamo sul talento"

Il Politecnico di Bari continua a dialogare con le aziende del territorio. E ora stringe un accordo con Masmec, che finanzia il nuovo dottorato interateneo di ricerca "Industria 4.0". Sarà dedicato alla realtà virtuale e aumentata, da impiegare nelle attività di manutenzione e assistenza sugli impianti produttivi. «Il nuovo dottorato – spiega la sua coordinatrice Mariagrazia Dotoli, docente ordinaria di Automatica al Politecnico – è incentrato sul paradigma dell'industria 4.0, e nello specifico sulla convergenza e integrazione tra tecnologie di produzione e dell'informazione».

▲ La visita in azienda il rettore del Politecnico Francesco Cupertino nella sede della Masmec a Modugno davanti a un macchinario

Isotta Fraschini, il rilancio passa anche dal Politecnico

Un programma di ricerca per il rilancio della **Isotta Fraschini** motori. L'azienda del gruppo **Financiel**, con sede a Bari, svilupperà il progetto "I future" con il Politecnico di Bari grazie a un accordo triennale e rinnovabile. «Il progetto – spiega il presidente di **Isotta Fraschini** Motori, Sergio Razeto – è un percorso impegnativo di rinnovamento della nostra azienda, che guarda all'eccellenza e all'innovazione. Sono soddisfatto di avere come partner scientifico il Politecnico di Bari per questa operazione di rilancio».

Future outlooks

● Teaching

- Establishing Double Degrees with other PhD courses at foreign universities
- Extending the course catalogue of the Poliba PhD School

● Research

- Expanding the PhD research results towards the Industry 5.0 paradigm
- Monitoring of PhD students' results (publications/patents/software, etc.)

● Internationalization

- Increasing collaborations with foreign universities

● Technology Transfer

- Monitoring of placement of future PhDs
- Consolidating collaborations with companies

● Dissemination

- Promoting communication activities (e.g., course website, newsletter)
- Participating in workshops and fairs

Thank you for your attention!
